

30 MAR 86

Building is secure, checker
on right side as you enter
building. Area around building
is also casually patrolled
like by police in vehicles.
Floors are ridged somehow,
running parallel to ground.
Sky is overcast and it is
rainy.

Moved to an upper floor,
perhaps 2nd or 3rd. Where I
was before. Room with L
shaped table. Looked for
a man who would know
what is going on. He was
considering a matrix. Had
to remember that matrix looked
2 dimensional but was
really 3D. (see sketch).

CONSTRUCTION AND MOVEMENT
WAS INVOLVED IN WHAT WAS
BEING PLANNED. People WERE
HOPING THAT THE EXPECTATIONS
OF THE OTHERS WOULD BE
REASONABLE AND REALISTIC.

WATER MAY BE INVOLVED
IN SOME WAY WITH WHAT
THEY ARE DOING.

I FOUND MYSELF IN
AN OTHER PART OF THE
BUILDING WITH A GIRL
WHO SHOWED ME A PICTURE
ON A MACHINE (SEE SKETCH).
IT WAS OF A STRUCTURE
SLOPING DOWN AND THEN
UP BELOW THE SURFACE.
STRUCTURE HAD A CENTRAL
CORE AND SEVERAL HORIZONTAL
FLOOR BRACES. IT WAS

COVERED BY A VERY LOW
SLOPING TOP OR ROOF.

THE SESSION WAS
VERY CONFUSED. I KEPT
BOUNCING AROUND AND
HAD TO KEEP COMING
BACK TO THE BUILDING.
ALSO THERE IS MUCH I
DO NOT REMEMBER.
